PROFILE

Informatics Engineering graduate from Universitas Negeri Semarang (GPA 3.79). I build mobile and web products — most recently a React Native field-operations app for an LPG distributor — and I train computer-vision models to classify medical images. I work comfortably across disciplines: alongside engineering I have produced video and social content for two campus organisations and taught digital safety to children in a rural village. I am applying to Apple Developer Academy Indonesia because a nine-month, build-first programme is the format I learn fastest in.

EDUCATION

AUG 2022 — JUL 2026

BACHELOR OF COMPUTER SCIENCE, INFORMATICS ENGINEERING

Universitas Negeri Semarang · GPA 3.79 / 4.00

- Thesis: Pneumonia classification from chest X-ray images using DenseNet-121 and ResNet-50 with a Convolutional Block Attention Module (CBAM).

EXPERIENCE

OCT — NOV 2025

MEDIA TEAM

KKN Giat 13 UNNES — Desa Bogem (community service programme)

- Directed and edited the village profile video for Desa Bogem, from concept to final cut.
- Designed the programme's Instagram content and kept a consistent feed identity.
- Documented every activity across the two-month deployment.
- Wrote and delivered a cyberbullying-awareness class for the village's children.

JAN — MAY 2025

MOBILE DEVELOPER — PROJECT-BASED INTERNSHIP

PT Ngupoyo Rejeki Lestari Mulya

- Designed and built a mobile app with the team for driver attendance and live tracking of LPG delivery drivers.
- Owned the front end: screen architecture, attendance and tracking interfaces, and state handling.
- Contributed on the backend, wiring the API endpoints the app relied on.
- Stack: React Native, Expo, TypeScript, Node.js, Tailwind CSS.

SEP — DEC 2024

WEB DEVELOPMENT & UI/UX TRAINEE

Celerates Academy — PT Mitra Talenta Group (Kampus Merdeka)

- Trained as a full-stack web developer across HTML, CSS, JavaScript and Express.js / Node.js.
- Named **The Most Active Student** of the cohort.
- Built a team capstone: a Bali travel web app with itinerary building, hotel booking, accommodation and transport.

JUL — SEP 2023

MEDIA & COMMUNICATIONS (KOMINFO) — VOLUNTEER

Interface 2023, Computer Science Department

- Produced trailer videos for Interface 2023 and PKMMTJ 2023.
- Designed the Instagram feed and managed the @osjurilkom account.
- Handled photo and video documentation throughout both events.

SELECTED PROJECTS

PNEUMONIA CLASSIFICATION – DENSENET-121, RESNET-50 & CBAM

INDIVIDUAL

THESIS

Deep-learning study detecting pneumonia from chest X-rays, comparing two CNN backbones with an attention module to sharpen where the model looks. Python, TensorFlow / Keras.

FIELD OPERATIONS APP FOR AN LPG DISTRIBUTOR

GROUP PROJECT

INTERNSHIP

Mobile app for driver attendance and live delivery-driver tracking. My role: front-end lead, with backend contributions. React Native, Expo, TypeScript, Node.js.

BALI TRIP PLANNER – TRAVEL WEB APP

GROUP PROJECT

COURSE CAPSTONE

Travel-planning web app for Bali: day-by-day itinerary building, hotel booking, accommodation and transport in one flow. HTML, CSS, JavaScript, Express.js.

INTERFACE 2023 – EVENT CAMPAIGN & TRAILER

GROUP PROJECT

COMMITTEE

Trailer videos, Instagram feed identity and full documentation for two Computer Science department events.

DESA BOGEM – VILLAGE PROFILE & DIGITAL SAFETY CLASS

GROUP PROJECT

COMMUNITY SERVICE

Village profile video plus a cyberbullying-awareness class written and taught to local children during KKN Giat 13 UNNES.

SKILLS

LANGUAGES	JavaScript, TypeScript, Python, Java, C++, SQL	MOBILE	React Native, Expo, Flutter
WEB	HTML, CSS, Tailwind CSS, Node.js, Express.js, REST API	DATA & AI	Jupyter Notebook, CNNs, DenseNet-121, ResNet-50, CBAM
TOOLS	Figma, VS Code, Git, video editing	SPOKEN	Indonesian (native), English (intermediate, TOEFL 547)

AWARDS

2024	THE MOST ACTIVE STUDENT
Celerates Academy – Web Development & UI/UX, Kampus Merdeka	

ONLINE PORTFOLIO

WEB	PATRICKRAYY.GITHUB.IO Interactive portfolio – built from scratch with HTML, CSS, JavaScript and Three.js - Full write-ups of all five projects, in English and Indonesian, with images and links. - A downloadable copy of this CV and of the portfolio PDF.
